**ATTACHED B:**

**"Turnkey" service conditions**

The Seller, by signing the "Turnkey" service, acknowledges that all sales of WWTech s.r.l. (THE "Supplier") are carried out according to INCOTERM EX-WORK, ie "ex warehouse"; the warehouse is identified as "Logistica Delledonne s.r.l." based in Via Aldo Moro 10, 13876, Sandigliano (BI), Italy "

According to the aforementioned incoterm, the transfer of ownership of the goods between the Supplier and the Seller therefore takes place when the product is made available at the agreed warehouse. At the time of delivery to the Courier / Carrier, the product is already owned by the Seller and travels in the name, on behalf and at the risk of the same,

The Supplier (WWTech srl) deals with the procurement of the goods while the packaging and entrusting to the Courier, as well as the insertion of the shipment tracking of the item on the DS platform are carried out by Logistica Delledonne srl, which the Seller acknowledges as being in charge of carrying out the necessary steps for delivery to its end customer.

The successful delivery therefore becomes the duty of the Courier on behalf of the Seller. In case of repeated absences of the customer at the time of delivery, of errors in the indication of the shipping data, of failure to verify the online tracking for the resolution of the problems inherent in the transport from the warehouse to the final customer, these problems must be addressed and resolved by the Seller with the appointed Courier. If necessary, WWTech s.r.l. will offer the necessary support gained from its experience, without this varying in any way, the Incoterm of delivery between Supplier and Seller.

Since neither the Supplier nor the Seller have the opportunity to physically touch the items shipped, the parties relying on the work of the specialized logistics processing dedicated to e-commerce, both recognize the operator "Autotrasporti Delledonne s.r.l." as the exclusive arbitrator in the event of disputes with the end customer. In particular, since all sales relations between the Seller and the final customer exclude the Supplier, in the event of any disputes regarding the quality of the products received by the final Customers, the declaration and confirmation of good functioning and conformity issued by Logistics will be the document recognized by both parties as a solution to any dispute.
